City of Lewisville Green Vendor Guidelines

The City of Lewisville is counting on you to help make this event a "green" success. Special events generate large amounts of waste, and we are committed to minimizing the amount going into landfills. We ask that you support our efforts to be an environmentally friendly event by properly recycling materials you generate at your booth and working hard to reduce trash.

Please contact our event coordinator with any questions associated with our sustainability initiatives. Thank you for your help in showcasing sustainability efforts in Lewisville.

Take the pledge to be a Green Vendor at our events, those who pledge to do so will be recognized at the event with signage at their booth space provided by the City of Lewisville.

Green Vendor Guidelines:

- If you are a sustainable, environmentally-friendly business or just do something unique to save resources, we want you to flaunt it. Put up a sign or at least discuss your efforts with attendees.
- We will have recycle bins paired with trash cans in all public areas. Make sure all staff working your vendor booth are familiar with City's waste reduction/recycling efforts at the event and vendor responsibilities.
- Please strive for reusable display materials and decorations. We don't want to have a bunch of trash at the end of the event due to plastic tablecloths, balloons, etc. Use reusable containers to transport your materials to the event site (plastic pallets, plastic crates, or corrugated cardboard boxes).

Food Vendor Guidelines:

- ALL food and drink vendors should have a trash container with liners inside the booth in the food preparation area. The bags will be disposed of per direction from the event organizer.
- Concessionaires should sell beverages only in recyclable bottles or cans rather than disposable cups. If cups are absolutely necessary, use plastic cups made with #1 (PET) or #2 (HDPE) plastics so they can be recycled.
- Avoid using difficult-to-recycle materials such as waxed paper goods or products in multi-material packaging. Keep packaging to a minimum.
- Please - NO expanded polystyrene (EPS) products (e.g., Styrofoam™). EPS does not biodegrade in landfills and it is not recyclable through the City of Lewisville's onsite recycling program.
- Hand out straws, lids, plastic stir sticks, and napkins only when requested. They contribute to excess trash and litter.
- If possible, dispense condiments such as ketchup and mustard from pump-style bulk containers rather than using single serve packets.
