- 1. Consideration of Deferring Implementation of the Lewisville High School Engineering Site Plan Previously Approved on December 7, 2009.**

**ADMINISTRATIVE COMMENTS:**

The Lewisville ISD obtained site plan approval for improvements to the Lewisville High School campus on December 7, 2009. The site plan was approved with several previously granted variances, as well as new variances related to parking lot space requirements, installation of automatic fire sprinklers, and allowing an existing sub-standard fire lane. The district is examining a more comprehensive renovation plan for the high school that would require new site plan submittals to the city and would make investment in the currently approved plan impractical. The action requested is to defer implementation on the current plan until the district can submit documents for the more comprehensive approach and obtain necessary approvals from the city.

**RECOMMENDATION:**

That the City Council defer implementation of the December 7, 2009 approved site plan until a "date certain" (to be determined) by which LISD can submit new plans.

- 2. Adjourn the Called – Special Session.**
