

City of Lewisville Smart Irrigation Controller Credit Guidelines & Instructions

The most common method used to schedule irrigation is a manually programmed clock timer that irrigates a specified amount on a preset schedule programmed by the user. As an alternative to a clock timer controller, weather-based irrigation “Smart” controllers make irrigation schedule adjustments automatically by the amount, frequency, and timing of irrigation events based on current weather data and landscape conditions.

General Guidelines:

- Program applicant must be a water customer of the City of Lewisville in good standing.
- This program is not for multi-family or commercial water customers.
- The City does not endorse specific brands, nor is responsible for the performance or repair of the controllers.
- Funding for each fiscal year runs from October 1 through September 30. A dated and itemized sales receipt must be submitted with the application within sixty (60) calendar days of purchase and installation and postmarked no later than September 15.
- Program terms and conditions are subject to change without prior notification.
- A maximum of \$375 in credits for any combination of eligible water conservation improvements are available per single-family residential address in one fiscal year.

Specific Guidelines:

- Up to a \$75 credit for a qualifying smart controller. **Tax is not included.**
- One (1) smart irrigation controller credit per household.
- Must be WaterSense certified. Products found at <https://www.epa.gov/watersense/product-search>.
- The smart controller must be set to the minimum shutoff requirement specific to its brand and model.

Smart Irrigation Controller Credit Instructions

- 1) Select WaterSense certified controller from product search website (see above).
- 2) Search: Product category “Irrigation Controller.”
- 3) Purchase qualifying smart controller (preferably from Lewisville retailer).
- 4) Install qualifying controller. The City of Lewisville recommends using a registered licensed irrigator for installation of qualifying equipment.
- 5) Submit an application with supporting documentation enclosed (see below).

****Note:** Smart irrigation technology equipment does not exempt residents from watering restrictions.

Enclose the following documents with your application and submit to:

Neighborhood Services – Office of Sustainability
Attention: Smart Irrigation Controller Credit
P.O. Box 299002
Lewisville, TX 75029-9002

Model Number**: _____

Subdivision: _____ Lot Size: _____

**Qualifying controller must be WaterSense certified: <https://www.epa.gov/watersense/product-search>.

I have read, understand, and agree to the following:

- It is my responsibility to ensure that the smart controller is properly maintained and functions as it is designed and is set to the minimum shut off requirements specific to its brand and model.
- I understand that it must be a WaterSense certified weather-based irrigation controller to qualify.
- I understand when my application is processed a representative from the City of Lewisville may contact me to verify the installation of my new smart irrigation controller before my credit is issued.
- In accepting this credit, I acknowledge that the City of Lewisville is in no way responsible for the condition of the plumbing on my side of the meter, now or in the future.
- I understand that qualifying items are selected on the basis of water efficiency only. The City of Lewisville does not endorse specific brands, products, or dealers nor does it guarantee materials, workmanship, performance, or durability of the qualifying items.
- Once processing is complete and the credit is approved, a corresponding credit will appear on my utility bill.
- I understand the City reserves the right to change program eligibility or end the program at any time, without notice.
- I certify that the information on this application is true and correct to the best of my knowledge.
